There is a Silent beauty even in Urban Decay. I have been working on a series of images for a year now, trying to capture some of Akron Great Structural Monuments in their final stages before being torn down. The light quality from vast industrial windows combined with leftover machinery, parts, immense space provides some wonderful imagery.

Photography is a very powerful medium, , that is now gaining recognition as an Artform. Photography has the ability to inform, persuade, shock, sell and humor. In the past , Photographers such as DIANE ARBUS, Robert Frank, Gary Winogrand, & Lee Friedlander have documented the human condition and have produced images that have changed the way we look at life.

My work in this years May Show is of similar Genre, I Photograph people in their environment , and with good use of lighting, composition and The Decisive Moment it can produce a memorable moment.
